The attendance and betting are regularly improving. Sum-Island last winter "Jack" has been failing. By the advice of his relatives and friends he went to Rockaway Beach to live, and for a time his health improved. After his benefit at Madison-square Garden, Dempsey gradually failed. Recently he was seized with fainting spells and spasms. By great effort "Jack" was revived, but the pains did not cease. His sister-in-law, Mrs. Thomas Dempsey, who is stopping with him, was so alarmed that she immediately telegraphed to "Jack's" wife at Portland, Ore., and also communicated with Martin Dempsey, his brother. The latter met "Jack" at Rockaway. It is expected that the ex-middle-weight champion will start for Portland next Monday.

"CHOP" DOLLARS FOR JAPS.

Mr. Doolittle's Plan for Aiding American Trade in the Orient.

TACOMA. Wash., June 29.-Representaive W. H. Doolittle left to-day for Washington to spend the summer there transacting business of importance to the State. As a result of his recent Oriental trip he ing of "chop" dollars for use in the transaction of business in the Orient-in Japan and China especially. Mr. Doolittle says: "Great Britain has long been coining these dollars and placing the Japanese chop' or characters representing the silver in the characters representing the Spitish stamp on piece on one side and the British stamp on the other. This currency has been of great service to British merchants transacting business in China and Japan, and hence the British nation at large. Our trade dol-lars might have served the same purpose, but, lacking the Japanese 'chop' or char-acter indicating value, the Chinese and Japanese did not understand and Japanese did not understand them and would not use them. The measure, I think, Congress will enact will provide for the coinage of these dollars with the eagle on one side and the Japanese 'chop' on the other. The piece will be irredeemable in gold, and will contain the same amount of silver as the American dollar. It will purchase in Japan about double the amount a gold dollar will purchase in this country."

Low hanging clouds and partial darkness, with occassional rain gave to-day's meet a weird aspect. Seventeen heats in Class

A made the programme tiresome. The metropolitan district turns out regularly sixty to seventy entries in every Class A contest. To-day's record goes to Cabannea handicap competition mark of 12:04 for five miles. This was a pretty contest. Cabanne and Titus on scratch, Murphy fifty yards, and Sims one hundred yards, a field of a dozen ahead and raining at the time. Murphy, Sims and E. C. Johnson dropped out under the pace and the field closed only for the final sprint. Cabanne pulled something from his sleeve and shot like a catapault over the tape in 12:04, his team mate, Titus, being beat by little Kiser (225 yards) for second position.

Bald made a very decisive win in the mile open over Murphy, whom he had offered to race for \$500 a side at this very meet. A great four-cornered battle with Gardiner, of Chicago; Bald, of Buffalo; Cabanne, of St. Louis, and Murphy, of New York, was expected. Gardiner did not start in the final and Cabanne got over the bank and out. Bald held the tandem and out-sprinted Murphy two lengths in 2:02 1-5, only twofifths outside of the record he is so anxious DALLAS, Tex., June 29.-These are busy Murphy. It is singular that more of us do in a clear and distinct voice, pronouncin their words plainly, giving each sentence drop the voice too suddenly at the end of a paragraph. It is so natural to let the voice fall too much and too far at the close of a paragraph that those who wish to be heard make a point of learning how to use the rising inflection-not to the degree which implies interrogation, but, so to speak, leaving off with tones on the level.
